RE: Disclosure Pursuant to M.G.L. c. 268A, §6(a)
Participation Required as Part of Official Duties

Dear Sir or Madam:

As a paid employee of Match Charter Public School, a Massachusetts public charter school (hereinafter referred to as "Match"), I have worked as the Director of Match Teacher Coaching. My duties as Director of Match Teacher Coaching have included directing the teacher coaching program for the Match Export program, a program operated by The Match School Foundation, Inc. (the "Foundation") for disseminating the best practices of Match. I am writing to notify you that I have accepted a permanent position with the Foundation to provide teacher coaching in New Orleans schools.

Pursuant to M.G.L.c. 268A, §6(a), I hereby advise the State Ethics Commission that my duties at Match would require me to participate in a particular matter in which another organization with which I have an arrangement concerning prospective employment has a financial interest. The Foundation has a "financial interest" in Match, as defined in M.G.L.c. 268A, §6(a), as it shares a facility with Match at 1001 Commonwealth Avenue in Boston, shares certain back office resources with Match and receives other in-kind benefits from Match. Each of these arrangements benefits both the Foundation and Match. While employed at Match, I have received no compensation from the Foundation and have been compensated only by Match.

Please do not hesitate to contact Jennifer B. Block, Esq., General Counsel of Match, at jbblock@matchschool.org or at 617-921-4765 if you require additional information or have any questions or concerns.
