Dear Dr. Wang,

Thank you for your recent Outside Activity Disclosure regarding assignment of a textbook you have written to students in your course. In order for you to assign textbooks to your students that you have written and from whose sale you will financially benefit, you are required to fully disclose and receive a written determination from your appointing authority consistent with the statutory language of §6 of the MA State Ethics Law indicating that your financial interest in the textbook selection decision is not so substantial as to affect the integrity of your service to the Commonwealth.

I have reviewed the Outside Activity Disclosure (copy attached), publicly available information about the textbook and other information provided by you and determined that your financial interest is not so substantial as to be deemed likely to affect the integrity of the services which the Commonwealth may expect from you and you may use the textbook for the course as indicated in your disclosure.

You should retain this written determination for your records.

Sincerely,

Dr. Charlotte Mandell, Vice Provost for Undergraduate Education
